

# Broken Again?

Get an L&L Kiln - with Exclusive Hard Ceramic Element Holders!

A competitor's kiln after three years of use in the same studio.

The kilns shown above were photographed as is at the Wallingford Arts Center in Wallingford, PA.

The bottom picture shows a typical electric kiln with routed fragile firebrick supporting the elements. After a few years the brick often falls apart and the elements keep getting ruined. Pins make the problem worse. The top picture shows an L&L kiln after years of use in the same studio under the same conditions. Notice the hard ceramic element holders support the elements, protect the brick and ensure that your kiln lasts many years. Budgets are tight - buy an L&L kiln and save real money.

## volume index

VOLUME 132, SEPTEMBER 2002-JANUARY 2003

In every January and June/Summer issue, ARTS & ACTIVITIES publishes a Volume Index. The index lists, by category and author, the articles that ran during a particular five-issue volume. We recommend that you photocopy the Volume Indexes and keep them in a binder for reference when looking for articles and information dealing with a particular topic, medium, artist, art technique, etc.

### ART APPRECIATION/ART HISTORY

- Art Across the Curriculum: Letting Go, Nov., p. 26

# 3 important things when choosing art materials!

**1. ease** With the easy to use and versatile Cray-Pas, children easily discover how colors blend to create an endless palette, and without the mess of oil paints. And, once on paper, the art won't peel away, crack, or fade. The paper sleeves help keep kids clean.

XEPL-C288

**2. safety**

The full color range is AP seal approved — and certified for non-toxicity. Cray-Pas is ingredient-free of soy, peanut, gluten or cochineal-derivative.

**3. quality**

The specially formulated pigment, wax and oil is ideal for smooth easy-glide drawing, a wide range of effects, and consistent color that won't fade. Recognized by educators as the ideal learning medium for children of all ages.

## Paragon's easy-to-load Dragon kiln for teachers

Teachers who have bent over to load kilns will love the Paragon Dragon. Gain access to all of the interior without straining your back. Or your budget.

Front-loading kilns are ordinarily very expensive. But the Dragon will fit right into your budget: only \$3995 for the base model.

The Dragon exudes power. 16,500 watts heat the 24" wide, 24" deep, 27" high interior to cone 10 with ample power to spare. The 4" thick walls, top and door are made of 3" firebrick backed by 1" of ceramic fiber block insulation. The floor is 4 1/2" thick firebrick. The extra insulation not only saves energy but also cools slowly for spectacular glazes.

With Paragon's state of the art Sentry 12-key micro processor, you can fire the Dragon at the precise speed you desire. In the Sentry's cone-fire mode, add a slow cool segment and specify cooling rate.

Make your Dragon unique with a number of exciting options. For more information on the Dragon, call or email for a free brochure. Ask your local Paragon dealer for a demonstration.

Prices & specifications subject to change without notice. UL Listed to U.S. & Canadian safety standards. Shown with optional 24" stand and drying rack. Due to extra insulation, kiln exterior remains cooler than that of standard kilns.
